

Something from nothing

WesternTrash is designer drinkware with Berlin soul. We make high-quality glasses and lamps from recycled bottles.

Everything we make is handcrafted, which means no two items are exactly alike. Look deep into your glass and explore the galaxy of bumps, bubbles and curves. You'll never find that same pattern twice – every glass tells a different story.

WesternTrash is 100% sustainable. We produce no waste, use only recycled materials, and source all of our glass locally in Berlin. It's a simple concept with stunning results.

Welcome to Kreuzberg

Our work is inspired by the creative energy of Berlin's most famous district. The place where spontaneous beauty and madness fill the streets, art blends with anarchy, and free people march to a different tune. WesternTrash is proud to call Kreuzberg home.
