Hobbies & Interests

Electronic Music — Vinyl Records — Rock-climbing

Diplomacy — International Relations — Design

Projects

LEPPO
GitHub | Live

An Instagram web app for designers worldwide

- Custom JavaScript and CSS animations with responsive design
- RESTful Rails API delivers JSON data to clientside Backbone application
- Used Instagram API to fetch images and captions
- Logged in users can add Instagram feeds to follow and like posts

BELLINO
GitHub | Live

A lightweight Trello twin built in Backbone and Rails

- Nested Backbone views for boards, lists and cards
- Custom Rails API supplies JSON data

CHESS
GitHub

Classic game written in Ruby for play in the command line

- Designed class inheritance of pieces to DRY out code

Work

PRODUCT ENGINEER
